## NUTS & BOLTS

Heavy Duty Big Block, 727 Torqueflit Automatic Transmission It came out of 1969 Dodge Charge (along with all the accompanying bits, including a transmission cooler with about 2 months use on it) It does not have the kick down linkage. This transmission was completely serviced and had all the seals replaced in early Sept 2016 and was swapped out in Sept 2017. There were only a couple tanks of gas put through the car in this period because the car was in the body shop for 9 months between Sept 2016 and Sept 2017. I also have the pedal cluster and other parts that go with it if somebody want to change a standard transmission car to an auto.
